

Job Description – Tooling Design Engineers

Due to an increase in UK manufacturing activity, Nova have exciting opportunities available for enthusiastic mechanical design engineers with tooling design experience adding to our internal engineering design team.

Working on a variety of engineering projects mainly for the aerospace or automotive industry sectors, you will be based in our modern 40 seat design office in Kingswinford, West Midlands.

The design engineers should be eager to work, learn new skills and develop within the organisation.

The candidates should:

- Have automotive, aerospace or machine tool mechanical design experience ideally with experience of jigs / fixtures / body in white assembly tooling
- Have a general mechanical background
- Be good team players
- Have the drive to improve and learn new skills
- Be passionate and take pride in their work
- Be able to meet project deadlines

You will ideally possess an ONC/HNC/BEng in Mechanical or Production Engineering or a related subject.

This is a good opportunity for experienced design engineers looking to improve and broaden their skill set by working on projects across several engineering industries. You will be required to work as part of a team, and will also be comfortable working on their own initiative. You should be self-motivated and enjoy rising to challenges when required to solve engineering design issues or find solutions.

Experience in any of the following CAD packages will be advantageous:

- Autocad
- Catia
- Creo
- Pro Engineer
- Inventor
- Solid Edge
- SolidWorks
- Unigraphics NX

We pride ourselves on providing a quality engineering design service. The candidates will have Nova's principles in their mind-set and will be looking to maintain and enhance the reputation of the company.

About Nova:

Established in August 1988, we are an established engineering design consultancy who undertake design and detailed design projects for a number of well-known clients across most engineering industries including Aerospace, Automotive and Nuclear.

End clients include Rolls Royce plc, Jaguar Land Rover, BMW MINI, Sellafeld Limited, .

Based on Pensnett Trading Estate, with plenty of free car parking, we are about 3 miles from the Merry Hill Centre and close to all the major road networks.

Please send CV's / covering letter initially to our Recruitment Team via email
