Job Description – Junior Mechanical Design Engineers

Due to an increase in UK manufacturing activity, Nova Design have exciting opportunities available for a number of enthusiastic individuals who have recently completed an engineering apprenticeship and are wishing to progress their engineering career by advancing into a design office environment.

Working on a variety of engineering projects across the spectrum of mechanical engineering sectors, you will be based in our modern 40 seat design office in Kingswinford, West Midlands.

About YOU

- Have a strong interest in mechanical engineering
- Be a good team player
- Have the drive to improve and learn new skills
- Be passionate and take pride in your work
- Be able to meet project deadlines
- Self-motivated and enjoy rising to challenges

Experience in any of the following CAD packages will be advantageous although relevant training will be provided.

- AutoCAD
- Inventor
- Catia
- Solid Edge
- Creo
- SolidWorks
- Pro Engineer
- Unigraphics NX

We pride ourselves on providing a quality engineering design service. The candidates will have Nova's principles in their mind-set and will be looking to maintain and enhance the reputation of the company.

In return, Nova Design offer a competitive salary and generous holiday allowance together with auto enrolment pension scheme and flexible working hours.

About Nova

Established in August 1988, we are an established mechanical engineering design consultancy who undertake design and detailed design projects for a number of well-known clients across the majority of engineering sectors including aerospace, automotive, general mechanical and nuclear.

End clients include Rolls Royce plc, Jaguar Land Rover, TATA and Sellafield Limited.

Based on Pensnett Trading Estate, with plenty of free car parking, we are about 3 miles from the Merry Hill Centre and close to all major road and bus networks.

Please send CV's / covering letter initially to our Recruitment Team via email
