Job Description – Mechanical Tooling Design Engineers

Due to an increase in UK manufacturing activity, Nova Design have exciting opportunities available for a number of enthusiastic mechanical design engineers and draughtspersons with tooling design experience to join our internal design team. You will be based in our modern 40 seat design office in Kingswinford, West Midlands.

This is a good opportunity for experienced design engineers looking to improve and broaden their skill set by working on tooling engineering projects across the spectrum of mechanical engineering sectors. Projects include jigs / fixtures, machine tool and body in white tooling.

About YOU

- Have a strong interest in mechanical engineering
- Be a good team player as well as comfortable working on your own initiative
- Have the drive to improve and learn new skills
- Be passionate and take pride in your work
- Be able to meet project deadlines
- Self-motivated and enjoy rising to challenges

Experience in any of the following CAD packages will be advantageous although relevant training will be provided.

- AutoCAD
- Inventor
- Catia
- Solid Edge
- Creo
- SolidWorks
- Pro Engineer
- Unigraphics NX

We pride ourselves on providing a quality engineering design service. The candidates will have Nova's principles in their mind-set and will be looking to maintain and enhance the reputation of the company.

In return, Nova Design offer a competitive salary and generous holiday allowance together with auto enrolment pension scheme and flexible working hours.

About Nova

Established in August 1988, we are an established mechanical engineering design consultancy who undertake design and detailed design projects for a number of well-known clients across the majority of engineering sectors including aerospace, automotive, general mechanical and nuclear.

End clients include Rolls Royce plc, Jaguar Land Rover, TATA and Sellafeld Limited.

Based on Pensnett Trading Estate, with plenty of free car parking, we are about 3 miles from the Merry Hill Centre and close to all major road and bus networks.

Please send CV's / covering letter initially to our Recruitment Team via email
